EXTERNAL PVC DOORS

The door structure made of PVC, reinforced with steel in combination with PVC door panels, ensures long-lasting and failure-free operation.

We make PVC entrance doors based on the most popular window and door systems from our range. These include both cost-effective entry-level models and energy-saving premium models.

We offer external doors in the following systems:

- ✓ V70 PERFECTLINE,
- ✓ V82 POWERTHERM+,
- ✓ PN70 BALANCE,
- ✓ PK76 INNOVO.

PANEL FILLINGS

We talk about batch filling when the panel is placed in the door sash frame. The hatch door is characterized by a visible leaf profile from the inside and outside.

Main features:

- ✔ material: HPL laminates and polyurethane foam (PUR)
- ✔ colors: paints from the RAL palette and Renolit veneers to choose from
- ✔ glass: sandblasted according to patterns, sandblasted according to individual customer patterns
- ✔ modifications of designs at the customer's request.

HANDLES AND HANDLES:

The handrail can be installed in all models of fillings. The length and spacing vary.
